Welcoming session for visitor groups as Joint Activity of DWA & DVGW

Every day of the fair on the back of the DWA & DVGW exhibition stands from 9 a.m. to around noon. The welcome event includes a 10 min explanation about the role, products, and services of technical associations in Germany plus a group photo at the end of the activity. Register via “international@dwa.de” or spontaneous on the spot.

Introduction to the German Water Sector

Receive a compact overview of the German water sector from the German Association for Water, Wastewater and Waste (DWA) and Drinking Water (DVGW). There is a lot of creativity in the diverse German water sector, but this heterogeneity can be overwhelming for outsiders at first glance. Our presentations will provide clarity.

Individual free participation on the spot. Groups please register for both events in advance at international@dwa.de

Your DWA guide is Roland Knitschky, your DVGW guide is Jarno Banas.

Drinking Water Treatment – Presentation:

DVGW provides an overview of the Water Supply in Germany for international guests – including current statistics, developments in recent decades and its specific characteristics. One highlight is the excursion into German drinking water treatment, in particular regional differences in the treatment of groundwater, dam reservoir water or bank filtrate.
